

Construction Bidboard is California's prime publisher of jobs for state and municipal public agencies. Our premier public works project website, eBidboard™ provides quality construction information resulting in revenue generating, cost effective opportunities for our customers. This means you stay competitive in a rapidly-changing environment.

### ***Are You Ready for a Distinct Competitive Advantage in Bidding for Government Contracts?***

Accurate, up-to-date, detailed information on thousands of public sector construction projects in the State of California are featured on eBidboard. eBidboard delivers the public works construction project information you need to effectively bid on state and local projects resulting in more business for you!

- ✓ Quickly and easily filter searches by location, keyword, project category, project stage, contract type and more
- ✓ Access thousands of plans, specs and addenda for state and local projects in California reducing printing costs
- ✓ Save time by getting automatic bid date reminders and project update notifications via email
- ✓ A simple request gets you up-to-date plan holders' lists where you can communicate with or contact sub or prime contractors simultaneously, in seconds, with one click of a mouse
- ✓ Easily find and solicit Disadvantaged businesses for Good Faith effort compliance

### ***LEED Certified? Leap Frog the Competition!***

Ninety-Five percent of government agencies are mandated by Executive Order 13514 to award contracts to companies implementing green initiatives. Now contractors that meet LEED and environmental regulations will benefit from efficiently knowing which jobs match their expertise. Going Green is Smart Business!

eBidboard features:

- ✓ Flagged projects, displaying a green leaf icon, easily identifying it to the user as a green initiative project
- ✓ Users have the ability to search for all the green leaf projects by selecting the "Green Initiative Project" option
- ✓ LEED classification keyword templates are made available in the "Update Member Profile section" of the user's account; this allows the contractor/subscriber the ability to have predetermined keywords added to their profile
- ✓ Having LEED keywords in a members profile gives the user nightly updates of new opportunities that include chosen keywords for a project including green construction and engineering

### ***Looking for Federal Stimulus Projects?***

As Congress works to revitalize the U.S. economy with major investments in America's infrastructure, there will be a flood of new state and local government projects. You can easily find these opportunities on eBidboard utilizing our advanced search capabilities.
