GLENN COUNTY TRANSPORTATION COMMISSION

Request for Proposals: Issued May 12, 2020

Glenn County Pavement Management

Addendum #1: Issued May 29, 2020

ANSWERS TO SUBMITTED QUESTIONS

The following are answers to questions submitted to the Glenn County Transportation Commission by prospective bidders in response the Request for Proposals:

Question: Did the County have any outside assistance with regards to 360-degree camera technology when putting together this proposal? Company Name?

Answer: The Glenn County Transportation Commission prepared the Request for Proposals on behalf of the Glenn County region (Glenn County, City of Orland, and City of Willows). A template from StreetScan was used to develop the Request for Proposal.

Question: When will the County purchase StreetSaver? Before or After project?

Answer: It anticipated that StreetSaver will be purchased by Glenn County after the project. The City of Willows already uses StreetSaver while the City of Orland does not have a pavement management system. Other options may be considered but compatibility with StreetSaver is key.

Question: Will the County be conducting inspection in-house using 360-imagery?

Answer: No. The imagery is an option that would allow for quick visualization by decision makers. As such, it is considered optional.

Question: What is the budget?

Answer: The Glenn County Transportation Commission has budgeted $110,000 to $130,000 for the project. Other funds may be leveraged; however, approvals would need to come from the Commission.

Question: Where will the County house the 360-degree imagery?

Answer: If used, the imagery would likely be hosted in the cloud.

Question: What version of ArcGIS is the County using?

Answer: Glenn County currently has an Enterprise License for ArcGIS that is current. ArcMap is currently at version 10.5 and ArcGIS Pro at version 2.5.
